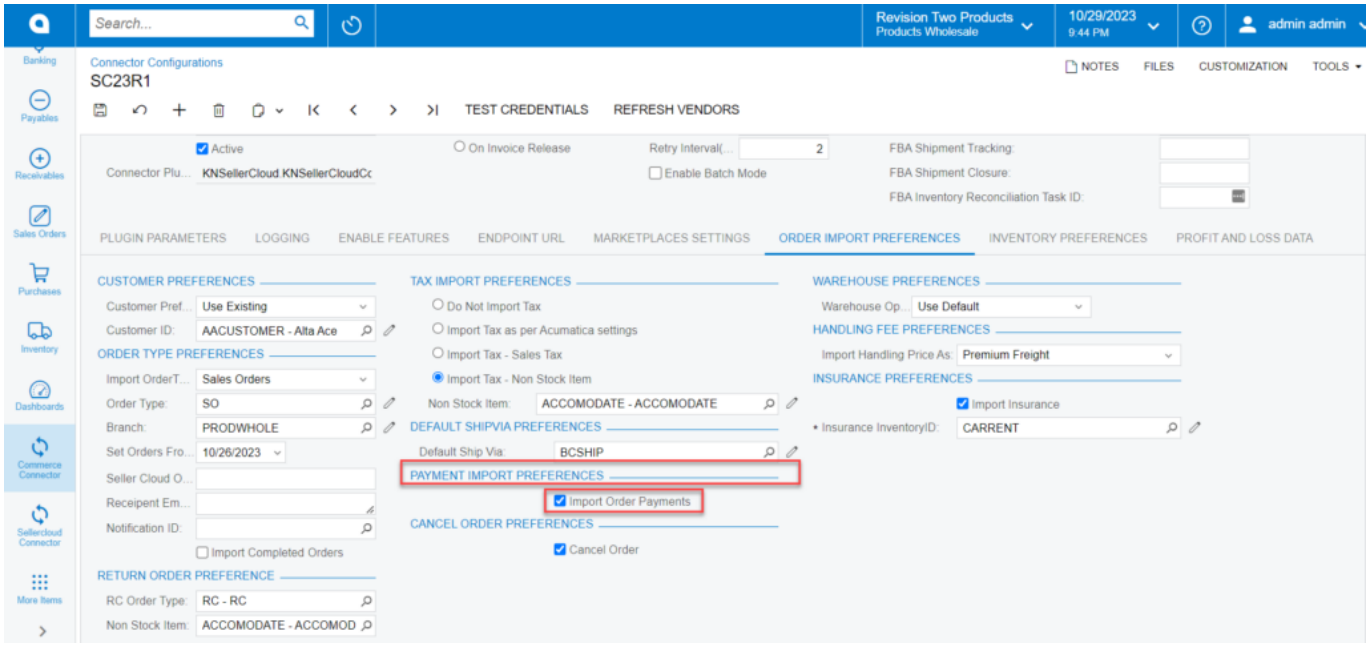
Payment Import Preferences

Payment Import Preferences allows configuring settings for importing payment-related data. It allows you to define how payment information is imported and processed within Acumatica.

If you want Sync **[Payment Import Preferences],** you need to follow the steps below.

- You must Toggle **[Import Order Payment].**
- The payment details won't be imported into the sales order if it is not toggled.



Toggle Payment Import Preferences

- Upon toggling the check box, the payment details will sync and reflect in the sales order.
