

Tax Import Preferences

 Tax import preferences involve settings and configurations related to importing tax-related data. These preferences help define how tax information is brought into the system, ensuring accurate calculations and compliance with tax regulations.

- For tagging the **[Tax Import Preferences]**, You have the following options.
 - Do Not Import Tax
 - Import Tax as per Acumatica settings.
 - Import Tax- Sales Tax
 - Import Tax-Non-Stock Item

Do Not Import Tax

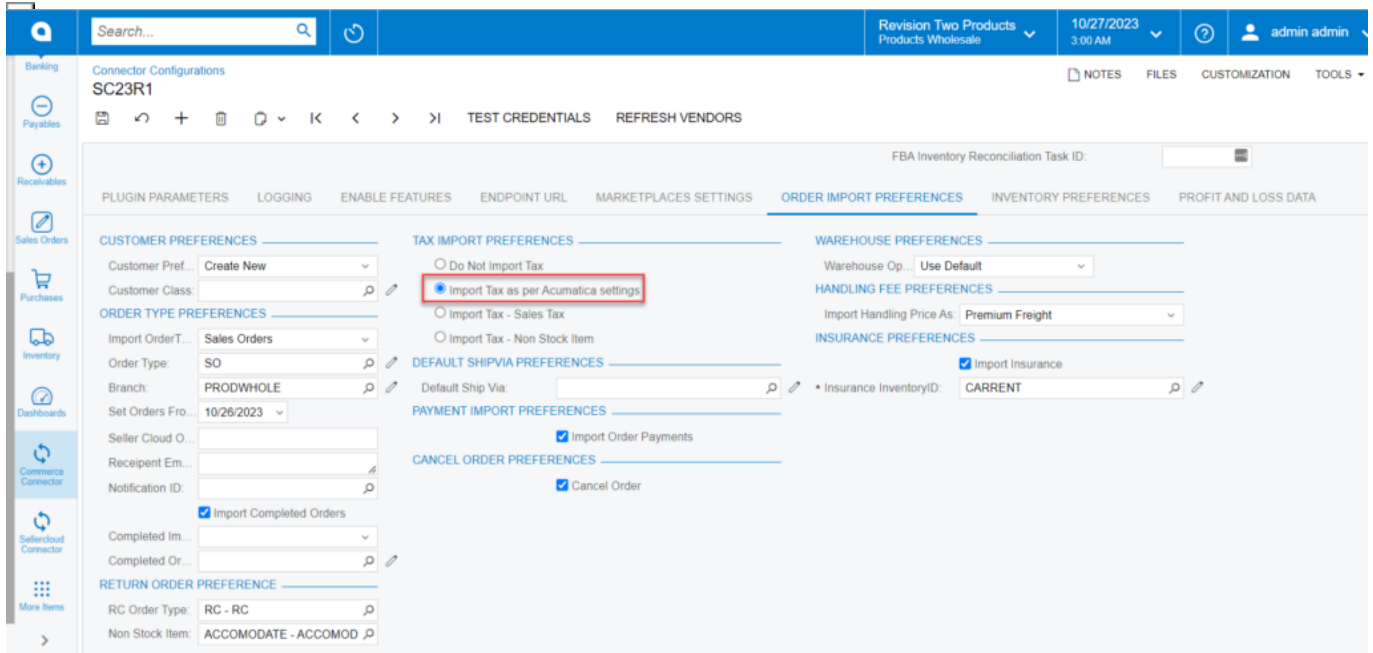

Upon selecting the **[Do Not Import Tax]** the tax amount calculated in the SellerCloud Connector will not be reflected in Acumatica.

Import Tax -Non-Stock Item

If you want to import tax information at the order level as a non-stock item, then proceed with **[Import Tax-Stock Item]**.

- Toggle **[Import Tax -Sales Tax]** then the order syncs from SellerCloud Connector to Acumatica,
- Select the non-stock item from the **[Inventory ID]**.
- Then a new non-stock item will be added.

The screenshot displays the 'Connector Configurations' page for 'SC23R1'. The 'TAX IMPORT PREFERENCE' section is active, with the 'Import Tax - Non Stock Item' option selected. A modal window titled 'Select - Non Stock Item' is open, showing a list of inventory items: '<N/A>', 'ACCOMMODATE', 'ADMCHARGE', and 'APPRENTICE'. The 'SELECT' button and the 'ACCOMMODATE' item are highlighted with red boxes. The background interface includes various configuration tabs like 'CUSTOMER PREFERENCES', 'ORDER TYPE PREFERENCES', and 'RETURN ORDER PREFERENCE', along with a sidebar navigation menu.
