

Refresh Token

 Schedulers are automatically established upon package publication; however, you can click on refresh token to verify that in case there are any issues.

Navigate to **[Commerce Connector]** on the left panel of Acumatica. And click on **[Refresh token]** under **[Configuration]**.

Refresh token in Configuration

- Click on **[Refresh Auth Token]**.

The screenshot shows the 'Refresh Token' screen in the Sellercloud Connector application. The interface includes a top navigation bar with a search field, a refresh icon, and user information (Revision Two Products, Products Wholesale, 12/8/2023 12:20 AM, admin admin). A left sidebar contains various navigation icons for Finance, Banking, Payables, Receivables, Sales Orders, Purchases, Inventory, Dashboards, Commerce Connector, and Sellercloud Connector. The main content area is titled 'Refresh Token' and features a 'Message' section with a 'Process Token' button. A red box highlights the text 'REFRESH AUTH TOKEN' in the message area. The bottom right corner of the screen has navigation arrows.
