# New Features and Enhancements

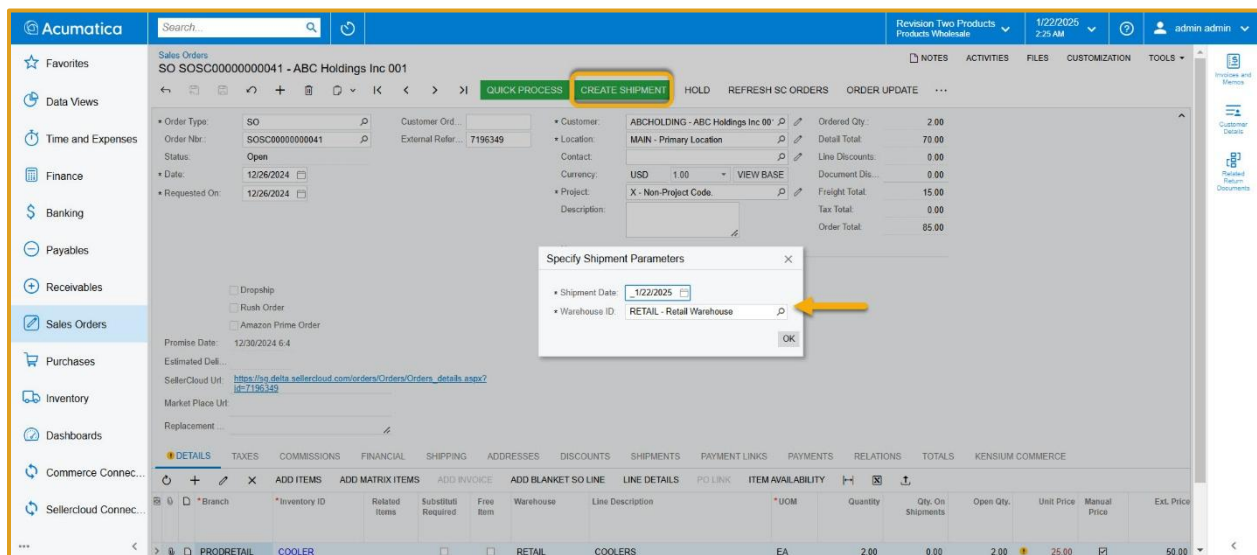

## Multiple Shipments and Packages

Acumatica now supports multiple shipments for a single order created.

- ✓ After an order is created in SellerCloud and synced to Acumatica navigate to Sales Orders screen.
- ✓ In the Sales Orders select the [Order Nbr.] for which shipments need to be created. The status of the order needs to be Open.

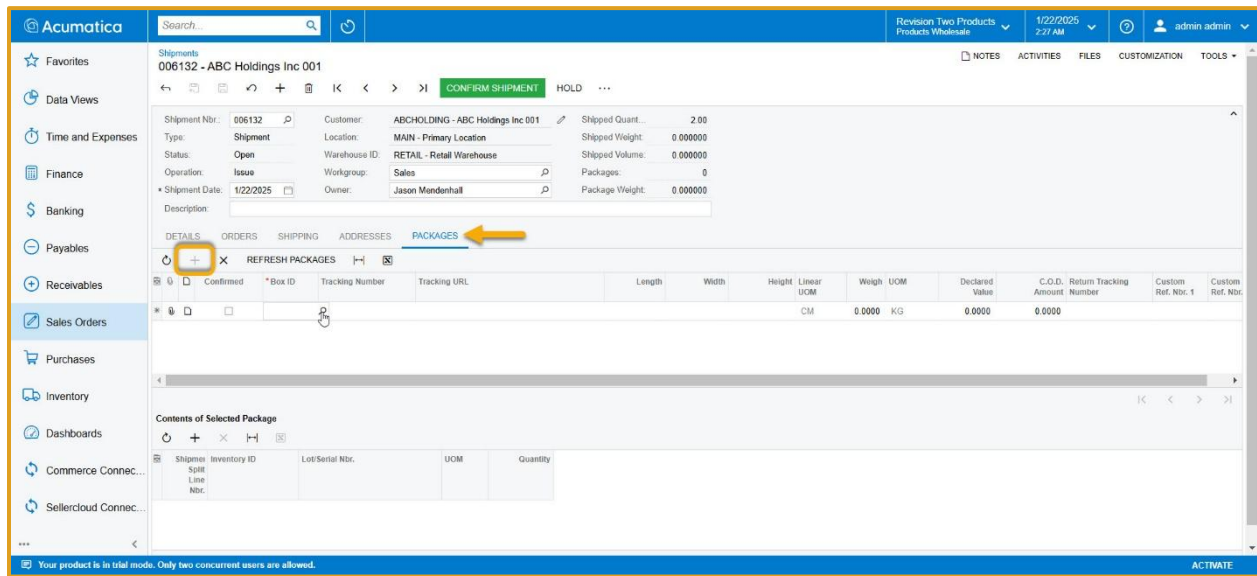

- ✓ Click on [Create Shipment] and [Specify Shipment Parameters] pop-up will be displayed.

- ✓ Select the **Shipment Date** and **Warehouse ID** and click OK. You will be redirected to the Shipments page.

- ✓ Select Box ID and Tracking Number details. You can enter multiple tracking numbers. Click on confirm shipment.
- ✓ Once shipment sync is completed the tracking numbers are synced between Acumatica and Sellercloud

## Installation Changes

There are no installation changes included in this release.

## UI Changes

There are no UI changes included in this release.

## Known Bugs and Issues

- ✓ Customer could not select connector ID on the Customer screen under Batch Process. (SCC-28)
- ✓ Error loading Connector Configuration screen under Commerce Connector. The page was showing an error message Error #0. (SCC-29)
- ✓ Errors in Product, Price, and Inventory Syncs in the Connector Logs section. (SCC-30)
- ✓ The user is facing an object reference error during Shipment sync. Failure of shipment sync from Acumatica to Sellercloud when customer preferences are changed. (SCC-49)
- ✓ Unable to load search results in the Shipments page under Batch processes. (SCC-51)
- ✓ Even after publishing the connector package and completing the licensing steps, the customer is not able to load the Vendors screen. (SCC-53)

All identified bugs and issues have been analyzed and rectified.
