New Features and Enhancements

Default Values in the Vendor Inventory tab

Vendor tab in Stock Items has been modified to show default values when a new vendor is being added.

✓ To add a new vendor for a stock item, navigate to **Inventory** on the left-hand side menu and click on **Stock Items** under **Profiles**. The Stock Items page is now open

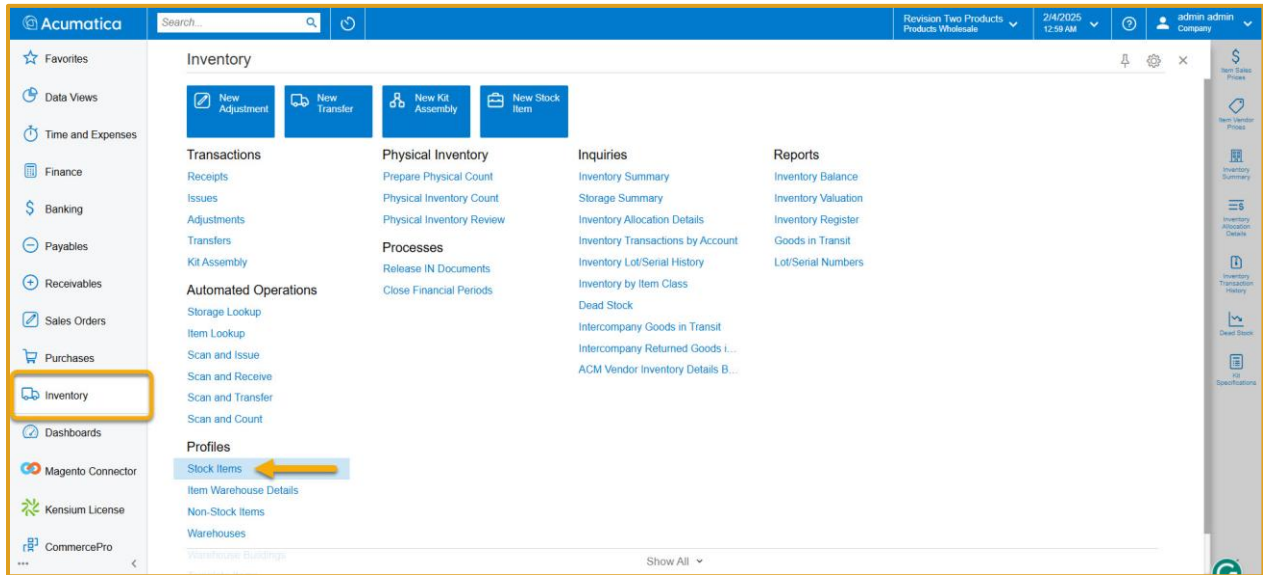

Figure: Navigation to stock items.

✓ On the Stock Items page select the required Stock Item to open the item level page and select **Vendors** in the item level page.

✓ Once you click **+** a new row will be added where you can enter the vendor details.

✓ Once a new row is added the Days To Keep Inventory, Available For Sale(%), and Quantity At Vendor columns are modified to show the default values as 0 and Inventory Updated Date is modified to show the current date.

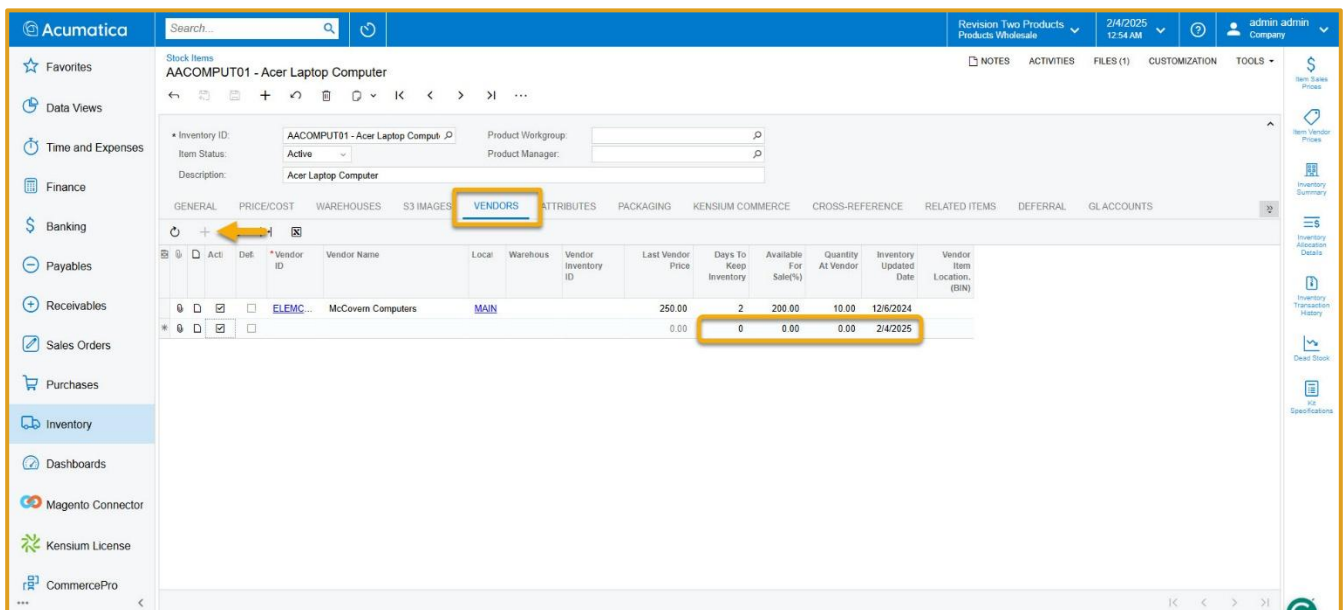

Figure: Vendors tab

✓ Click of the fields to edit the values and click Save icon.

Installation Changes

No installation changes are implemented in this release.

UI Changes

Users will be shown a validation message when **Non-Stock Item** is selected as **Process** in **Update Item Category based on Rules,** but **Non-Stock Items** check box is not selected in **Category Rules** on **Inventory Preferences** page.

The error message has been rectified to include the missing hyphen (-) in the word "Non-Stock".

Figure: Modified error message

Workspace	Screen	Entity
Acumatica	Update Item Category based on Rules	Process: Non-Stock Items

Known Bugs and Issues

✓ When the duplicate customer information is synced from Adobe to Acumatica duplicate customers are created without showing any error, even when Ignore Duplicates or Ignore Email is not selected in the Accounts Receivables Preferences page. (CPC-292)

✓ When Line Item Enhancement is unselected in the CommercePro Features Management page, the Line Item Enhancement option on the Sales Orders page of and order is not disabled. (CPC-297)

All identified bugs and issues have been analyzed and rectified.

Appendix

ID	Description
CPC-32	Vendor Inventory tab in Stock item screen, for existing Vendor records we need to set Current date and blank values filled with 0
CPC-292	CP 24R1: When the Duplicate Customer is synced from Magento then record is not failed in Magento and duplicates are created in Acm even though Customer class class is selected in email uniqueness
CPC-297	Line Item Enhancement: Line item enhancement button and Associated SKU and child component of Kit item fields are displayed even though feature is disabled
CPC-303	24R2 : Auto Assign Sales Category-Hyphen(-) synbol is not displayed between Non-stock in the alert
