New Features and Enhancements

Introduction of Fusion Commit Process Screen

We have added a screen Fusion Commit Process in Fusion WMS under Transaction. Navigation: Fusion WMS → Transactions → Fusion Commit Process as shown below.

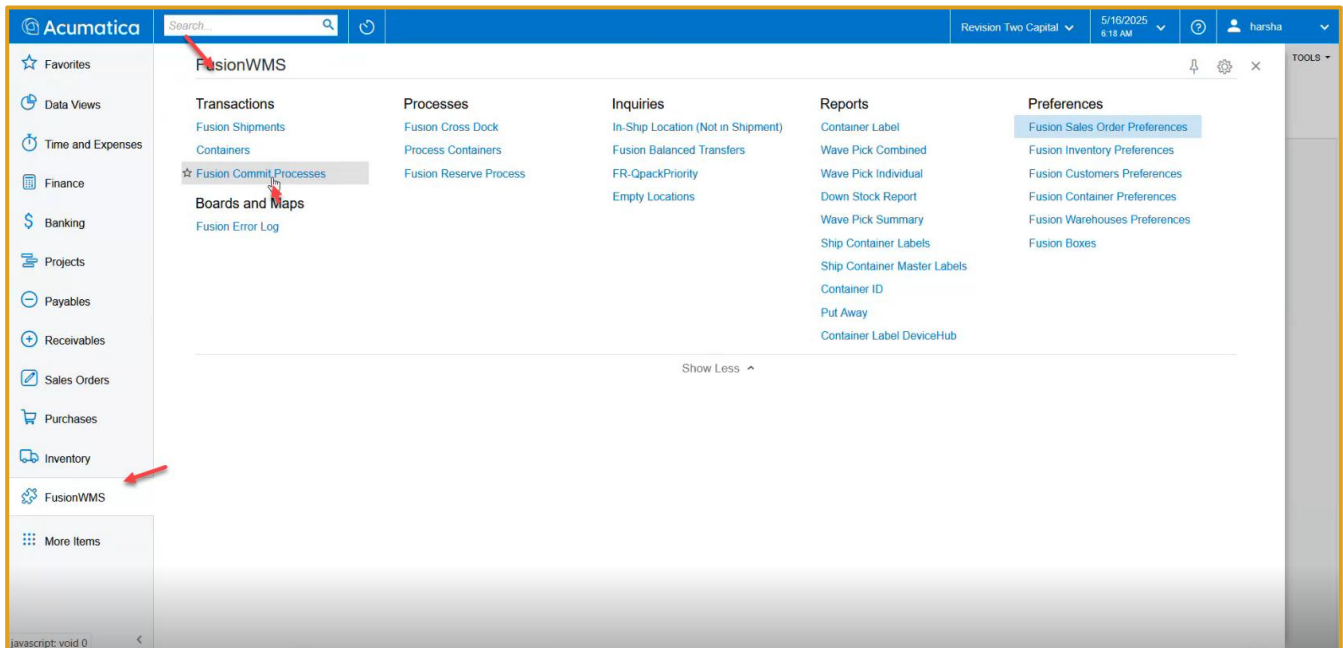

Figure: Fusion Commit Process

Upon clicking on this you will be redirected to Fusion Commit Processes Screen which includes an option [Show Status]. Show status will indicate whether the commit process is In Progress, Completed or Failed.

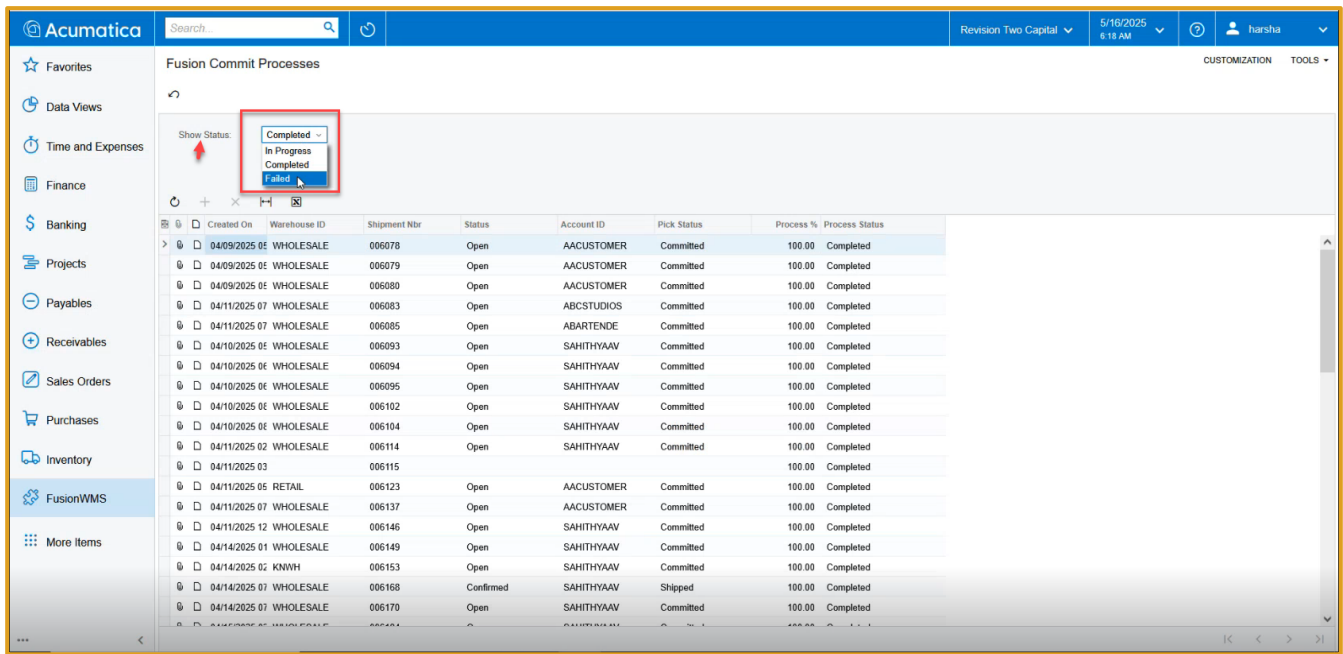

Figure: Show Status option for Commit Process

Note that, this is applicable to Pack, Pick Pack and Multi Pack.

On the HandHeld you will have the [Commit] for the above mentioned 3 options.

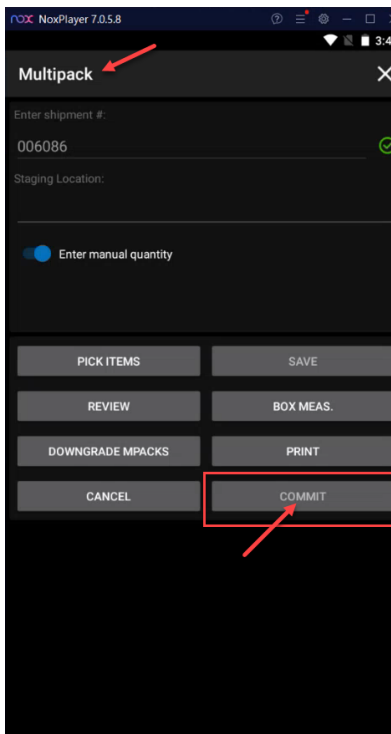

Figure: Commit Button on Multipack

When you click on the Commit button the first phase is In Progress and that's get reflected on the Fusion Commit Process Screen.

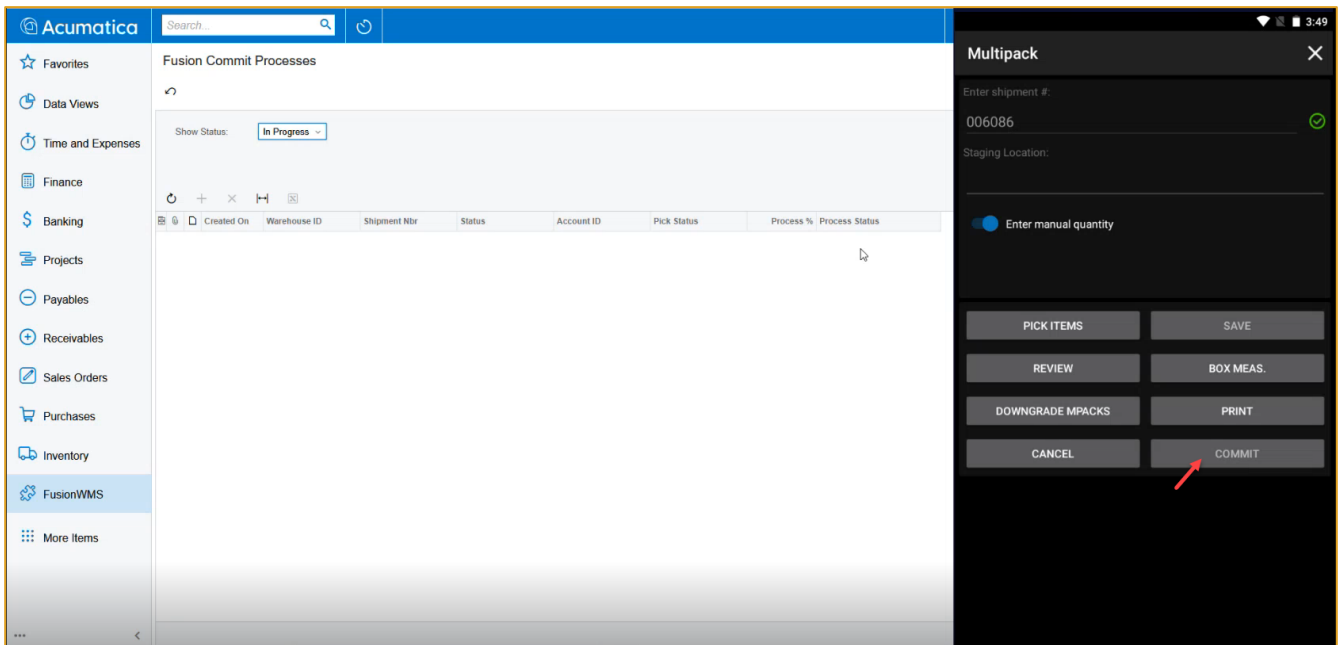

Figure: Filter the record within In Progress Status

Once it's completed you can view the records using the Status as Completed.

The screenshot shows the Acumatica web interface for 'Fusion Commit Processes'. The 'Show Status' dropdown is set to 'Completed', indicated by a red arrow. The table below displays a list of completed records.

Created On	Warehouse ID	Shipment Nbr	Status	Account ID	Pick Status	Process %	Process Status
04/09/2025 05	WHOLESALE	006078	Open	AACUSTOMER	Committed	100.00	Completed

04/14/2025 07	WHOLESALE	006170	Open	SAHITHYAAV	Committed	100.00	Completed

Figure: Completed Commit Process Records

This screen includes the Shipment Number and most importantly Process Percentage. In case if the process completed up to 96% it will show the same on the column. The Process Percentage will be 100 as it's fully completed.

Show Status Failed will be displayed in case the Commit action encounters any issues on the Handheld. From the above screen you can simply figure out the details of the failed Commit Process.

Customization Tools

Fusion Commit Processes

Show Status: **Failed**

Created On	Warehouse ID	Shipment Nbr	Status	Account ID	Pick Status	Process %	Process Status
04/17/2025 11	WHOLESALE	006229	Open	SAHITHYAAV	Committed	50.00	Failed

Figure: Commit Process failed.

This helps the user to identify shipment status which failed, in progress or successful after committing process.

Inter Warehouse Pallet Transfer

Enabled pallet and content transfer between warehouses for both One-Step Move and Transfer Order (TO) processes, ensuring proper movement from PStock W1 to PStock W2.

Step 1: Create a Container with a Warehouse as wholesale and the Inventory ID and Qty.

Containers

New Record

ContainerID: <NEW>

ContainerType: Master Pack

Warehouse: WHOLESALE - Wholesale

Location: R1S1 - Row 1 Shelf 1

Status: Active

OrderNbr:

ShipmentNbr:

Customer:

Creation Date: 5/16/2025 6:26 AM

Label:

Barcode:

Box: LARGE

Weight: 0.0000

Length: 0.0000

Width: 0.0000

Height: 0.0000

*Inventory ID	Location	UOM	Quantity	Lot/Serial Nbr.	CONTAINER ID	BOX ID
AACOMPUT01	R1S1	BOX10	2.00			

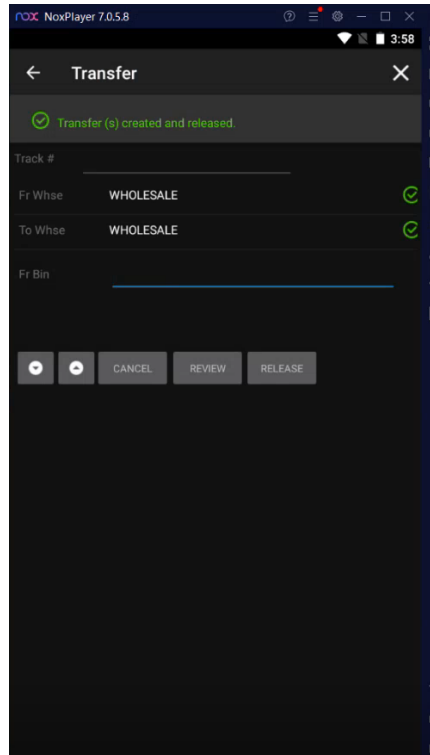

Figure: Create a Container

Step 2: Navigate to the HandHeld and go to the Transfer module. Enter the From Warehouse as Wholesale and To Warehouse as Retail.

Step 3. By using the Container ID you need to move the item from Wholesale to Retail.

Step 4. After Releasing it in Acumatica the Container Warehouse will change to Wholesale to Retail.

Step 5. Navigate to Acumatica and you will see that the Warehouse changed to Retail. So, the inventory ID moved from Wholesale to Retail.

Containers
PID-000150

ContainerID: PID-000150

Installation Changes

There is no installation changes included in this release.

UI Changes

There are no UI changes included in this release.

Workspace	Screen	Entity

Known Bugs and Issues

- Resolved an issue in 24R2 where Fusion package details were not displayed on the ACH Shipment screen after selecting "Create Shipment." This fix ensures proper visibility of package information during shipment creation. (WMS-1063)
- Added missing option to confirm shipment from Handheld in QuickPack. (WMS-767)
- Fixed issue where the Alternate ID field was not visible on the Put Away and Transfers screens, despite assigned Alternates being visible on the Handheld (HH). (WMS- 777)
- Resolved issue where processing large shipments with 40–50 packages resulted in commit errors such as: "Error processing shipment 015314: Another process has updated the 'SOShipment' record. Your changes will be lost." (WMS- 885)
- Fixed issue where the "Count Items" button was not visible on the Physical Count screen on the HandHeld device. (WMS-898)
- Some new features, bug fixes and improvements were made to the Fusion WMS 9.2.0 Release. (WMS- 904)
- Fixed Unauthorized and Null errors encountered during item picking for Transfers and Bin Checks. (WMS- 907)
- Resolved login issues with Pack Station following the latest installation. Users can now log in without errors or delays. (WMS- 908)

Appendix:

WMS-872	Provide visibility into the Commit Process performed in the background in Acumatica.
WMS-745	Inter Warehouse Pallet Transfer
